| Overview | Features |

The LightGuard (LG) 500 FTTx aerial weathertight fibre optic splice closure is designed for small count fibre splicing (up to 32 single or 48 mass) in a butt or in-line configuration. Used in aerial applications, the LG-500-FTTx is ideal for FTTx access networks by providing cable entry and connectivity for up to 12 drop cables and 16 connections, requiring only a common can wrench for installation.
