High performance  
Ceramic ferrule for precision fibre alignment  
Keyed push-pull latching mechanism  
Colour-coded connector housings

Overview

Features

Specification

Fujikura single-mode SC angled indoor and indoor/outdoor MDU drop assemblies are designed to meet stringent the performance requirements of the latest fibre to the home applications. Bend insensitive fibre reduces macrobending attenuation when routing the drops in tight environments and the SC angled connector guarantees the high-performance return loss required of video signals.

Available in both compact 3.0mm and rugged 4.8mm varieties allows for multiple installation scenarios. Assemblies are tested and qualified to Telcordia GR-326, Issue 3 requirements and meet all EIA.TIA-455-3 (FOCIS 3) interface standards for SC connectors.

#### Applications

- Multi-Dwelling Unit (MDU) drop cables for FTTH systems
- CATV Video systems
- LAN Networks
