Tested to meet or exceed EIA/TIA 568-A/GR-409-CORE

Compliant to directive 2002/95/EC (RoHS)

Hybrid constructions available

Overview

Features

Multi-unit circular premise cables are for use in applications requiring fibre counts between 18 and 144 fibres. Unitised construction allows for ease of fibre identification and rapid installation.

Applications

- Head-end termination to a fibre backbone
- Termination of fibre rack systems
- Multi-floor deployment where select fibres are used at each floor
- Intrabuilding backbones
