Impact, cut, and crush resistant
Highly flexible construction
Works in a wide range of temperatures
All aramid strength members

Overview

Features

Specification

Tactical tight buffered cables are ideal for use in installations where extreme environmental conditions are present. Designed to be deployed and retrieved in the field, tactical tight buffered cables are highly resistant to damage caused by repeated impacts crushing forces, abrasion and extreme temperatures.

Applications

- Field deployment in abusive environments
- Temporary installation of critical communications lines where quick retrieval and re-use is necessary
- High traffic areas
- Security and sensing applications
- Broadcast deployments
- Installations in harsh environments
