Up to eight fibres
Multiple adapter options available
IP65 rating
Accepts loose tube, distribution and pre terminated cables

Overview

Features

Specification

This robust ABS distribution box is IP65 rated, suitable for indoor and outdoor applications, and provides the ability to terminate eight fibres. With the ability to use SC Simplex and LC Duplex adapter types, this enclosure offers a flexible solution to the end user, enabling them to incorporate a multi-functional enclosure with easy access during installation or re-work with no disturbance of the existing cable or fibres.

In addition to the interchangeable adapters, the enclosure also offers up to eight exit points for patching cables and one standard cable entry point for loose tube, tight buffer, pre-terminated and steel tape armoured cables. Each enclosure has integrated strength member tie positions and bend radius protection with the addition of a removable front cover that allows for quick and easy installation.

Applications

- Data centres, premise installations, telecommunication networks
- Ethernet, fibre channel, ATM, LAN, MAN and WAN
- Data communication and telecommunication networks
- Indoor /outdoor applications
